ARTEM KONSTANTINOV

Junior Front-End Developer

Preferable salary: $1200

ABOUT ME

I started my Web Dev career when I moved to USA . My first project was Simple Website, I used Jquery, HTML, CSS. After that furniture company for whom I created website asked to create an online store, for this project i used Wordpress and Woocommerce, plus all Hosting tasks.

Then I returned back to Ukraine, and finished Main Academy, FrontEnd courses. In 2017 I had freelance order for online store on Wordpress.

Next in December 2017 I found my first job in IT company - Evo-Studio.I were creating there websites on HTML, CSS, JS and themes for Themeforest. After about a year of work there I decided to check DevOps course in Hillel.

In April 2019 I found my next job in company - Cloudit LLC . My responsobilities were, creating pages with React, creating forms with React and React-Formik, also a little tasks with Redux.
